🚨 EXECUTIVE SUPPLY CHAIN RISK BRIEFING — 2026-08-24

1. Executive Summary

An urgent inventory vulnerability has been identified across the distribution network. **19.0%** of monitored SKUs (19 out of 100 total SKUs) have crossed the critical stockout risk threshold (Probability ≥ 75%).

2. Primary Bottleneck Identification

* **High-Risk Exposure**: Identified primary risk across high-demand fulfillment hubs.

* **Top Critical SKU**: Newspaper Consumer Good (SKU: SKU-2042) with an ML stockout risk score of 0.9994.

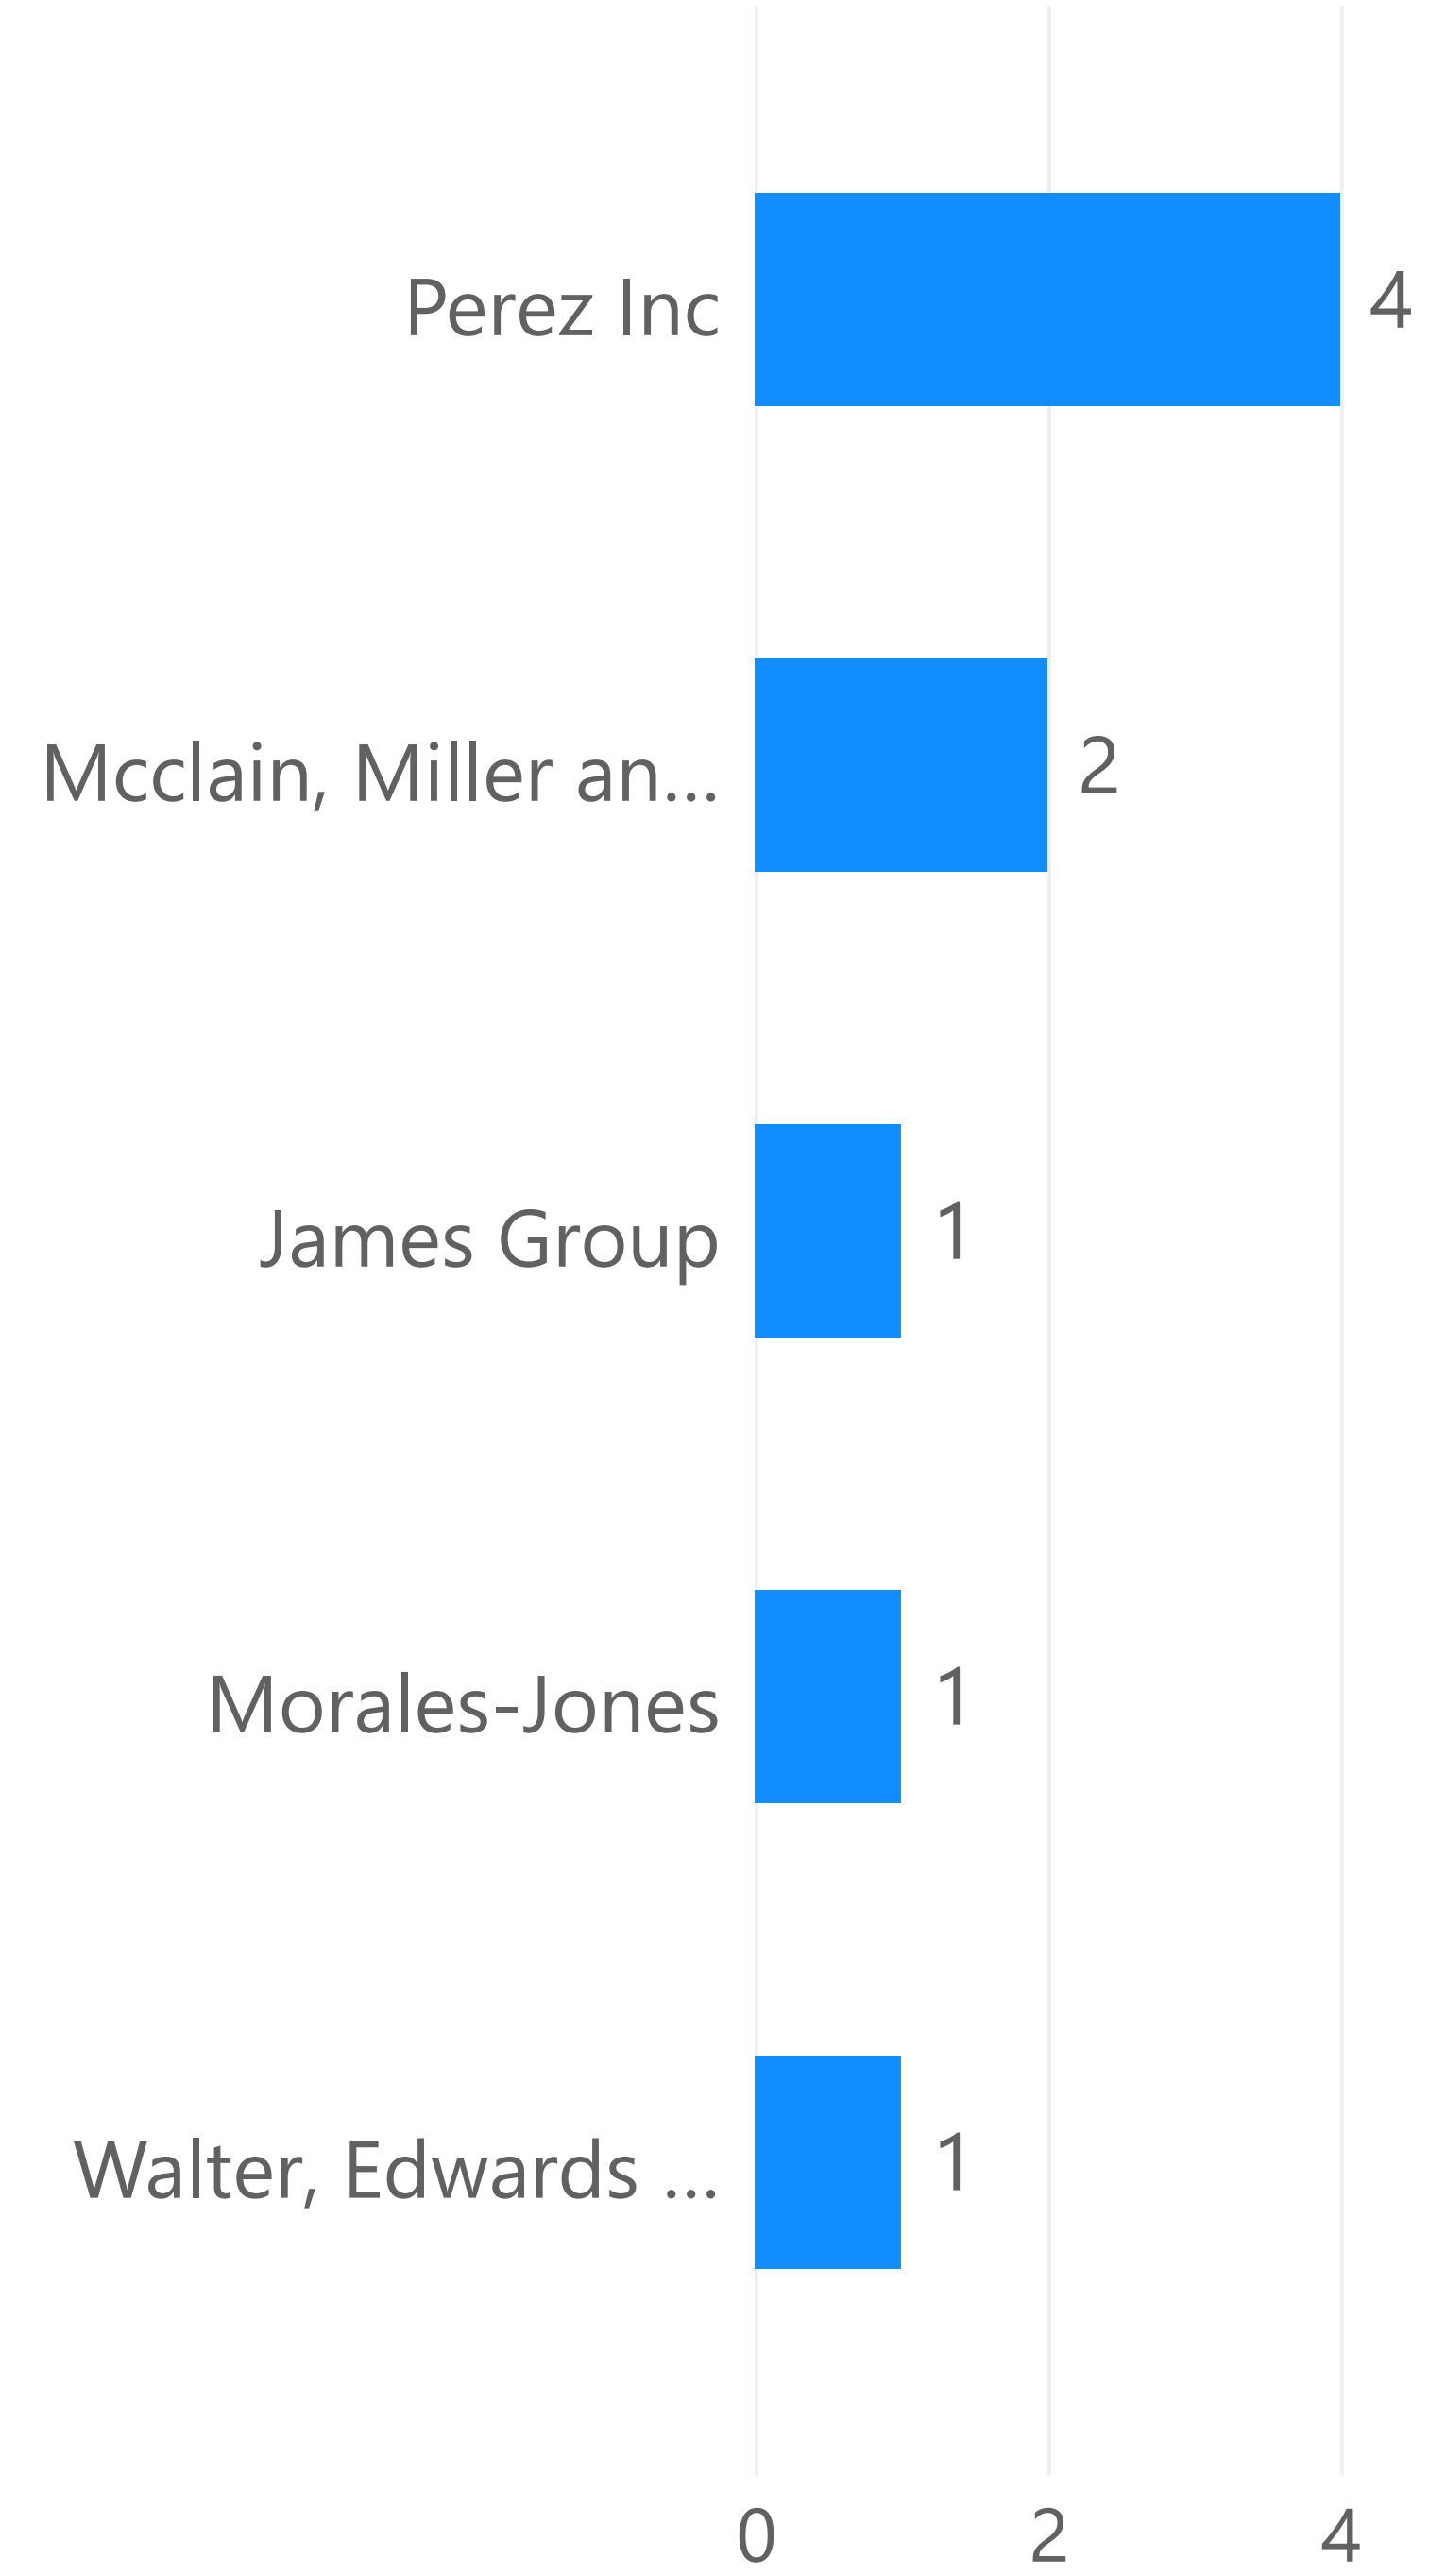

3. Immediate Action Plan

- Expedite Purchase Orders**: Instigate emergency purchase orders for high-risk SKUs.
- Inter-Warehouse Transfers**: Rebalance stock between fulfillment nodes.
- Adjust ERP Reorder Limits**: Recalibrate static thresholds to match ML-predicted daily demand curves.

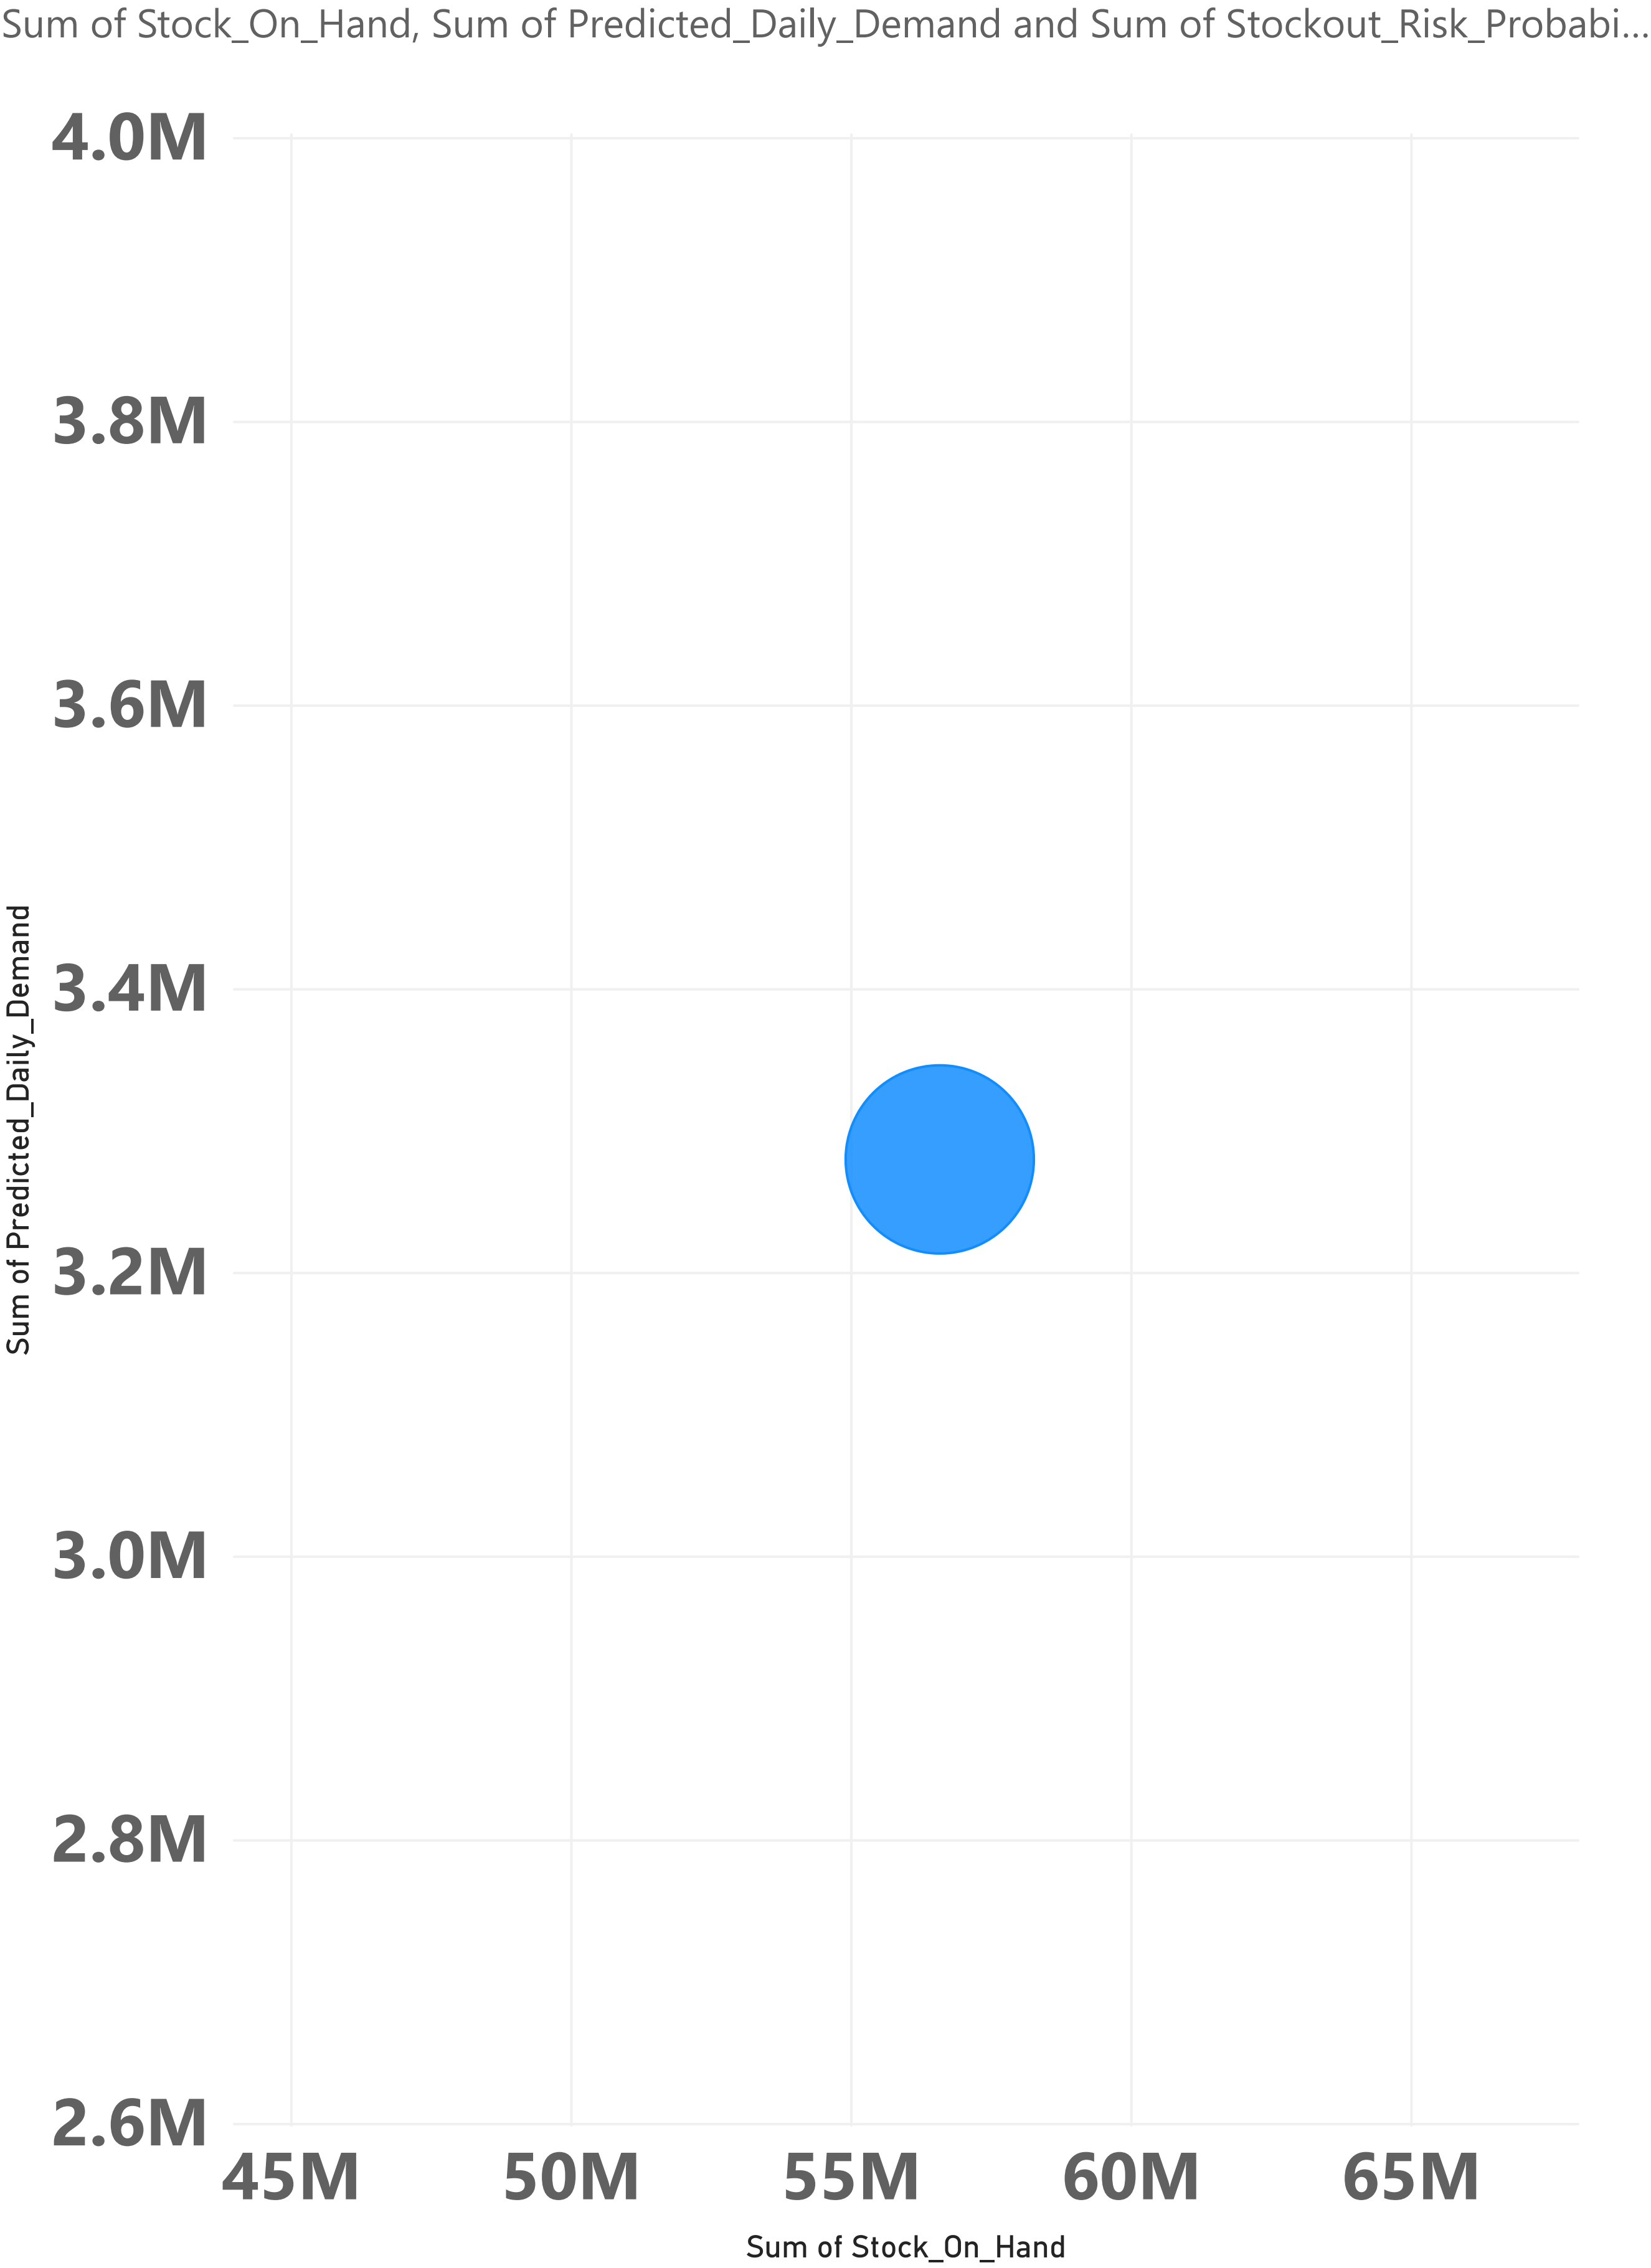

SKU	Sum of Stock_On_Hand	Sum of Predicted_Daily_I
⊕ SKU-2091	544740	32,
⊕ SKU-2092	573612	32,
